

BRIEF HISTORY

The Baitul Mukarram Mosque was established 1992 in the City of Montreal by a small yet active Bangladeshi Community. The Mosque offers five congregational prayers daily and classes for youngsters from a purchased warehouse.

PRESENT ON GOING PROJECT AND ACTIVITIES

In the last two years the community has continuously raised funds and managed to demolish the warehouse and build a magnificent purpose built mosque complex in its place. Funding was obtained locally and internationally and the total cost of the project has already reached over \$1.6 million.

FUTURE PLAN

Once the mosque complex is completed, the community intends to embark on Phase II of the project, which is to establish the following:

- A much needed Islamic School for the growing younger generation.
- A centre for Social Services

FUNDS NEEDED

The project is nearing its end but still requires essential funds to the level of approximately \$1,000,000. This will go towards finishing off the work and paying of 'Qard-E-Hasanah'

This is a landmark and historical project for Montreal Muslims.
